## ACTON STORM TANKS PILING WORK

Since our last update, works at our Acton Storm Tanks site continue to progress well. The sheet piling is due to be completed by late November.

As we move towards completion of the sheet piling works, we will need to remove the smaller crane currently on our site. On Friday 23 November, we will need to close Warple Way in order to remove this crane from site. The road will be closed between The Vale and Canham Road for a short period, anticipated to be between 20.30 and 23.30, to be able to remove this item of plant from site. Parking and loading restrictions will be in place along the full length of the east section of Warple Way during this time.

Once the crane is removed, we will start the construction of the drop shaft. We will begin by constructing a 5m high concrete segment chimney within the storm tanks. This will be followed by shaft excavation and sprayed concrete lining works, which is planned for early January. Vibration and noise monitors will be in place while we carry out these works and we will reduce disruption wherever possible through careful management arrangements.

Works will take place from Monday – Friday, 08:00 – 18:00, though we may also need to work Saturdays from 08:00 – 13:00. It is not anticipated that sprayed concrete lining works will be carried out during weekend working hours.

Over the Christmas period there will be no construction works taking place and the site will shut down. Our last day of construction work will be on December 21 and we will recommence in the New Year on 7 January. During this period we will continue to have a security presence on site.

*If you feel affected by Tideway's work, you can contact Tideway's Helpdesk and ask to speak to your local Mitigation and Compensation Lead, who will be able to advise you on the Independent Compensation Panel (ICP).*

## KEY INFO

### Duration of work

- Abnormal load departing on Friday 23 November between 20.30 and 22.30
- Drop shaft construction works starting late November for 5-6 months
- Monday – Friday 08:00 – 18:00, with Saturday 08:00 – 13:00
- One hour start up and shut down periods either side of working hours

### What to expect

- Parking and loading restriction on Warple Way between 20.30 and 23.30 on 23rd November
- Some noise and vibration expected during drop shaft construction works
- Increase in HGV vehicles arriving and leaving site, particularly during the excavation stages

### What will we do

- We will continue to monitor noise, dust and vibration levels
- We will use best practicable means to minimise noise
