BARN ELMS WORKING HOURS UPDATE

Work at our Barn Elms site is progressing well as we continue with the shaft construction works.

From Monday 30 September, as part of our shaft construction works, we will be extending our working hours at Barn Elms until 31 December 2019. This is while we continue with sprayed concrete lining (SCL) and reinforced concrete works in the shaft. SCL is being used to provide a primary watertight lining to the shaft and this requires a very high level of quality control.

Following discussions with London Borough of Wandsworth, our working hours have been extended. The team will now be working from 7am until 10pm for the duration, with a one hour start up and shut down period on either side of these hours.

The extended working hours will be from Monday to Friday until 10pm. Saturday working hours will be extended until 6pm.

We will continue to monitor noise and dust levels and use best practice to minimise any disruption.

If you feel affected by Tideway's work, you can contact Tideway's Helpdesk and ask to speak to your local Mitigation and Compensation Lead, who will then be able to support and advise you on the Independent Compensation Panel (ICP).

KEY INFO

Duration of work

- Monday 30 September: extended working hours until Tuesday 31 December, 7am – 10pm
- Saturdays: 8am – 6pm
- One hour start up and shut down periods either side of working hours
