March 2020

## HAMMERSMITH PUMPING STATION UPDATE

We would like to update you on our construction activities, which were scheduled for last month.

From Monday 16 March we will start sheet piling work, which will support the ground in preparation for excavation of the culverts. It will take three weeks to complete these works during our normal working hours: Monday to Friday between 08:00 and 18.00.

We will continue to monitor noise, vibration and dust levels in accordance with our approved management plans whilst we carry out these works and use best practice to minimise any disruption.

*If you feel affected by Tideway's work, you can contact Tideway's Helpdesk and ask to speak to your local Mitigation and Compensation Lead, who will then be able to support and advise you on the Independent Compensation Panel (ICP).*

## KEY INFO

### Duration of work

- Installation of piling from 16 March for three weeks
- Works to be undertaken Monday to Friday 8am-6pm

### What to expect

- Some noise during our normal working hours

### What will we do

- We will monitor dust and noise levels
- Best practical means to minimise noise
