ACTON STORM TANKS – SITE ACCESS

Works at our Acton Storm Tanks site are progressing well and we would like to let you know about a change to our site access arrangements.

We have now completed our main connection works into the current Thames Water asset as part of the construction works. The next phase of works will be to construct the acoustic attenuation chamber.

Due to this work there will be restrictions on some vehicles using our main entrance gate on Canham Road. From Wednesday 17 June, for approximately four months, we will use the Thames Water gate, located at the junction between Warple Way and Canham Road, to access our site.

If you feel affected by Tideway's work, you can contact Tideway's Helpdesk and ask to speak to your local Mitigation and Compensation Lead, who will then be able to support and advise you on the Independent Compensation Panel (ICP).

Tideway is happy to provide information in other languages and formats such as braille or large print. Please contact us: 08000 30 80 80 or helpdesk@tideway.london.

KEY INFO

Duration of work

- 4 months from 17 June.

What to expect

- Tideway vehicles accessing site via the Thames Water main entrance gate

What will we do

- Advise you if our plans change
