September 2020

## HAMMERSMITH PUMPING STATION – EXTENDED WORKING HOURS

We would like to update you about the information on the previous information sheet you received regarding the extended working hours at our Hammersmith Pumping Station.

To support the construction activities within the shaft, we will be extending our working hours.

These works will start as an initial trial for one month from Monday 21 September. If successful, it will run until Thursday 17 December. Our working hours will be Monday to Thursday 07:00 to 05:00, Friday 07:00 to 17:30, and Saturday 08:00 to 13:00.

The works will take place between 15 and 33 metres below ground level inside the shaft. These activities will be of low-noise impact and will be supported by the electric gantry crane.

We do not anticipate these works to be intrusive. The monitoring of noise, dust and vibration levels will be in place across the site and in the shaft at all times.

*If you feel affected by Tideway's work, you can contact Tideway's Helpdesk and ask to speak to your local Mitigation and Compensation Lead, who will then be able to support and advise you on the Independent Compensation Panel (ICP).*

*Tideway is happy to provide information in other languages and formats such as braille or large print. Please contact us: 08000 30 80 80 or [helpdesk@tideway.london](mailto:helpdesk@tideway.london).*

## KEY INFO

### Duration of work

- Initial one month trial from 21 September
- Extended working hours Monday – Thursday from 21 September to 17 December.

### What to expect

- Works within the shaft and use of gantry crane.
- Extended working hours for 12 weeks.

### What will we do

- We will monitor noise levels
- Best practical means to minimise noise
