GRANDS PROJETS

DIVERSION OF THAMES PATH KING EDWARD MEMORIAL PARK FORESHORE

From January 2023 to September 2024, Tideway will be diverting a short section of the Thames Path away from the riverside.

This diversion needs to take place so that we can safely:

- Build the infrastructure required to connect the existing Victorian sewer system into the new super sewer
- Build an electrical and mechanical kiosk that will house the technology required to make the system work
- Remove three trees by the south-eastern park gate (replacement trees are planted within the borough as part of our commitment to plant two trees for every one removed during construction)
- Create the permanent landscape and architectural features for the new foreshore site

Residents may have noticed that the Thames Path has been diverted since mid-September due to an unsafe footway. Our planned diversion follows the same route as this closure (see map overleaf). Please continue to use:

- The Highway
- Jardine Street

Tideway has kept the existing Thames Path route open for as long as possible during construction, to minimise inconvenience for path users. For the next stage of work and for the safety of all path users we do now require this temporary diversion.

KEY INFO

- Diversion of the Thames Path from January 2023 to September 2024
- Construction of permanent structures in the corner of the park and on the foreshore, close to Free Trade Wharf
- The sewer is expected to be operational and cleaning up the River Thames in 2025

We try our best to minimise disruption but if you have particular concerns about the impact of our work, we have mitigation options available. Typical mitigation could include the installation of secondary glazing, blackout blinds or noise cancelling headphones. If you wish to apply to the Independent Compensation Panel (ICP), please contact our Helpdesk helpdesk@tideway.london.

We would like to thank you for your patience and co-operation while we continue construction for the super sewer at King Edward Memorial Park Foreshore.
